

Registered 25-Year Limited Warranty

Leaf Exterminator™ Material Warranty

GPI Gutter Products (herein referred to as GPI) warrants to you, the purchaser, that under normal sunlight, exposure to the weather, natural elements, and proper maintenance, the painted finish on Leaf Exterminator™ products will not peel, flake, chip, crack, or blister for as long as the original registered purchaser lives at or owns the property described on the registration certificate and subject to the limitations set forth below.

Leaf Exterminator™ Performance Warranty

GPI warrants to you, the purchaser, that Leaf Exterminator™ will keep gutters from becoming clogged and overflowing as a result of the interior of the gutter and downspouts filling with debris such as leaves, twigs, needles, or seeds, subject to the terms and conditions, exclusions and limitations, requirements, and legal rights stated in this Warranty. Leaf Exterminator™ products are engineered to transfer all but inconsequential droplets of run-off water into the gutter when properly installed and maintained. It is the responsibility of the installing dealer to assure that the Leaf Exterminator™ system is performing as designed and has been properly installed.

Conditions

For these warranties to apply, it is required that your gutters first be thoroughly cleaned. Gutters must also be properly sloped, downspouts and underground drains must be cleared of any debris or obstructions and any downspout screens must be removed. All warranties will be null and void if the Leaf Exterminator™ system is not properly installed as verified by GPI.

Exclusion to Warranties

These warranties are granted to the initial retail purchaser and transferable with proof of transfer only and cover only the manufacturing defects as specified herein. Warranties cover manufacturing defects only, and they do not cover any other damage or material failure including, but not limited to, normal fading, damage caused by conditions beyond the control of the manufacturer, such as improper installation, settling of the building, failure of the structure (including foundations and walls), use of incompatible equipment, chemical pollutants, salt, fire, flood, ice dams, hail, lightning, windblown objects, earthquakes, hurricanes, atmospheric conditions, or other catastrophic weather as defined by the U.S. Weather Bureau, other acts of God, intentional acts, unreasonable use or failure to provide reasonable maintenance. GPI does not warrant and will not be responsible for any costs, defects, or damage with respect to the removal or re-installation of Leaf Exterminator™ products or components. The geographical location, the quality of the atmosphere and regions where hardwood tree tassels and/or pine resin are prevalent in excessive amounts, the top surface of the Leaf Exterminator™ system must be periodically maintained to continue performance excellence. Painting the specially-coated Leaf Exterminator™ products will void the Warranty. This Warranty only covers genuine Leaf Exterminator™. It is your responsibility to verify that the product installed is Leaf Exterminator™.

To Submit a Warranty Claim:

Claims for defects under this Warranty must be sent to the installation company for service and resolution. Service calls for non-warranty repair or adjustment may result in a service charge. To submit a claim, please provide the following: A copy of the original Warranty registration form, photographs to determine product authenticity, a description of the claimed defect, and the date of the defect discovery. Send to GPI Gutter Products, PO Box 940, Elkhorn, NE 68022 Attention: Customer Service Department.

LEAF EXTERMINATOR™

IMPORTANT MAINTENANCE TIPS

Remedy and Rights

GPI liability under this Warranty is limited to repair or replacement of the Leaf Exterminator™ sections(s), at its option, for the failing parts of the system within the time remaining under the original Warranty. If, after you have submitted your claim, it is determined by GPI that the product has failed due to manufacturer's defect, GPI will, at no charge, replace the defective Leaf Exterminator™ section(s).

Registration and Transfer

To activate this Limited Warranty, the original purchaser and the installing contractor must fill out, sign, and mail in the registration certificate within 30 days of the installation date. To transfer this Warranty, you must send a copy of the title transfer of the property shown on the registration certificate, and a copy of the original registration certificate within 30 days after the transfer, along with a money order or a check for \$50.00 for the transfer.

Important Maintenance Tips

Leaf Exterminator™ is one of the most effective and economical gutter protection systems on the market today. In most cases, normal debris is lifted away with a slight breeze. If the debris is wet or compacted, a minimum wind will be needed. It is your responsibility to periodically remove debris from the top of Leaf Exterminator to ensure working excellence. Leaf Exterminator™ will not eliminate ice formation or icicles at your eaves. Ice formation is mostly caused by factors not related to your gutter system. Leaf Exterminator™ is engineered to discourage gutter-clogging debris from entering the gutter system.
